The New Governor.

Mr. Jo. W. Trutch is to be His Honor Gov. Trutch. His appointment is the first that the Dominion has made for this colony; and his reign in all probability will commence in about three weeks. Though not altogether unlooked for, yet the news of the appointment came quite unexpected; and very naturally it has called out a considerable degree of comment. Now we are happy to say that the doctrine of "Grow Your own Governors" has been endorsed by the Dominion Cabinet; but the manner in which it is being enforced is likely to cause some diversity of opinion, and may, under certain circumstances, terminate in some considerable degree of dissatisfaction. We would much prefer to see the Governor elected by the people. In the Provinces of New Zealand, they elect their own Superintendents; and there a Superintendent is but another name for Lieut.-Governor. But the notion of electing a Lieut.-Governor is far too democratic—too much ahead of Canadian opinion, to be seriously thought of now; so we shall have to wait till the Dominion Parliament is a little more civilized before such an event can occur in this country. In the meantime, we will have to put the most favorable interpretation on the appointment to the office of Governor by the Ottawa Cabinet. It is considered by some very moderate and non-partisan people to have been a mistake to appoint Mr. Jo. W. Trutch. With the large body of the people throughout the colony the appointment will be a decidedly unpopular one. A small minority are doubtless prepared to worship the rising sun; and we presume men of all classes and all shades of opinion will be disposed to take a patriotic view of the matter, and extend to the new Governor such assistance as will best utilize his services in the interest of the colony and Dominion. There are men in the colony who have better claims for the post than Mr. Jo. W. Trutch, and are equally well qualified, and who ought to have been preferred to him by the Cabinet, and who would have been much more in accordance with popular feeling; but he had the advantage of them all—the inside track. Gov. Musgrave was bred an office-holder. He is a connection of Mr. T[illegible] or, and as a matter of course, [illegible]e snug billet would not be al[illegible] to pass out of the family, when it [illegible] be kept by a little gentle pressure, [illegible]sted by official art. Others, too, have not been wanting in presenting his claims to the Dominion Government in the most fulsome praise. Even His Honor sounded his own praise in Ottawa, by taking all the credit of battling for Confederation. The only difference between him and Dr. Carrall is that Dr. Carrall in Cariboo said,—"That I and the Governor carried through Confederation,"—whilst His Honor said at Ottawa that "It was Gov. Musgrave and I who did it" Hence, the Cabinet, no doubt with the best intentions, has made its first unpopular appointment,—as "a compliment," we are told, "to British Columbia." The Cabinet has also been carrying out its programme to select local men as Lieut.-Governors, wherever it is possible. The principle is a sound one; for a man who belongs to the country ought to know more about it than a stranger. Besides that, a local Governorship is a post worthy of the ambition of our public men; and it ought to be an established principle that it is as much within the reach of our prominent citizens as the Mayoralty of a city. When our people outgrow their old fogy notions of importing Governors, the appointment of a local man will be taken as a matter of course. In the meantime His Honor, Mr. Jo. W. Trutch will have to commence working the oracle; and if he avoids family compacts, his administration may prove successful. For our part, and we say it frankly, we are disposed to give him a fair trial; and then, if he don't prove to be the man for the occasion, it will be time to urge the appointment of a successor.

The Tariff.

The *Colonist* yesterday tried to make out several things, and in each and all it failed,—except in misrepresentation; and in that it succeeded to admiration. In the very face of the public documents sent to Gov. Musgrave by Lord Lisgar, that the Ottawa Cabinet would recommend to the Dominion Parliament a modification of our tariff, if the next Assembly desired it; and in the very face of Sir F. Hincks' statements that it would be favorably received, the *Colonist* denies that such a thing will be done. Now, who is to be believed. The defunct candidate for Nanaimo and his other self the *Colonist*, or Sir F. Hincks, the Cabinet, and Lord Lisgar? The latter, of course, everybody answers. Hence the conclusion that the *Colonist* is utterly unreliable on the question of tariff,—and scruples at nothing, particularly when it imagines that it can injure the member for Victoria district. For instance, it says that the member for Victoria district held that the Canadian Government would concede, if asked, the power to make our own tariff. Now, this is utterly without foundation. The member for Victoria district stood exactly where he does now, and he always maintained, and was the first to advocate it, that the Canadian Government could make a tariff to suit this country. The result of the negotiation of the terms of Confederation, and the despatches of Lord Lisgar confirm that position. He never for once advocated that the local Government should have power to make our own tariff after Confederation; but that the power to impose a tariff should rest with the Federal Government. Now, as regards the flour duty, Mr. DeCosmos was the first to recommend its reduction as wil be seen by his address to the electors of Victoria in 1868. So again, is our cotemporary at fault. We hold still that we can get just such a tariff as will suit our commercial and farming interests; and that is the true position for every enlightened elector to maintain.

R. Roberts, Tailor, Government street, Victoria, next door to London House, begs to inform his friends and public of Victoria generally, that he has just received, direct from London, ex "Pacific," a choice selection of beavers, broad cloths, Scotch and English tweeds, fancy silk velvet, figured silk and cassimere vestings, which he is prepared to make to order for the Lowest Cash Prices. *

BIRTH

In this city, on the 7th inst., the wife of J. A. Grahame, Esq., Chief Factor, Hudson Bay Co., of a daughter

"Grow Your Own Governors."

This, which has become almost an adage in our small community, has turned out, that we have really grown our own Governor. In addition to our dispatch of yesterday, with regard to Hon. Mr. Trutch's appointment to be Lieut-Governor of this Province, private dispatches were also received confirming the news. His Excellency has received from Mr. Trutch a dispatch, as has also Hon. Dr. Helmcken, of the appointment.

THE MILITIA OF CANADA.—The nominal strength of the active Militia of the Dominion of Canada, as shown by the latest Militia report, is as follows:—27 troops of cavalry, consisting of 1 regiment, 5 squadrons, 10 independent troops and 5 companies mounted intantry, having a nominal strength of 1,666 men; 10 field batteries of artillery, with 42 guns and 441 horses, and men 750; 70 batteries garrison artillery, consisting of 7 brigades, 1 provisional brigade and 13 independent batteries, men 4,108; 4 companies engineers, men 232; 623 companies of infantry and rifles, consisting of 77 battalions, 8 provisional battalions, and 78 independent companies, men 34,729; 3 marine companies men 174; and 16 companies of riflemen, being the two battalions sent to Manitoba. The whole giving a total of 44,519 men. The quotas required by law from the respective provinces are as follows:—Ontario, 18,079; Quebec, 15,382; New Brunswick, 3,264; and Nova Scotia, 4,284; and the quotas actually supplied are as follow in the order of the provinces:—19,734, 14,064, 3,315, and 4,422. These, with 2,122 of Grand Trunk Railway Militia and the two battalions sent to Manitoba make the 44,519. The brigade camps for the annual drill of volunteers were formed last month at Goderich, Niagara, Kingston, Prescott, La Prairie, Point Levi, Fredericton and Aylesford Plains. The men are allowed fifteen pounds of ball ammunition to compete for the various prizes offered. The following are the daily rations allowed to each officer or man:—1½ lb. bread, 1 lb. meat, 1 lb. potatoes, 2 ozs. sugar, ½ oz. coffee, ½ oz tea, ½ oz. salt, and 1-36 oz. pepper. The following are the established rates of pay for officers and men per diem:—Lieutenant-Colonel in command of a battalion, 4.87 dols.; major, 3 90 dols.; captain, 2.82 dols.; lieutenant, 2.18 dols.; ensign, second lieutenant, or cornet, 1.28 dol.; adjutant with rank of lieutenant, 2.44 dols.; adjutants with rank of ensign, 2.13 dols; paymaster, 3.5 dols.; surgeon, 3.65 dols.; assistant surgeon, 2.43 dols.; quartermaster, 1.94 dol.; sergeant-major, 1 dol.; quartermaster-sergeant, 90 c.; hospital sergeant, 90 c.: pay-sergeants, 80 c.; corporals, 70 c.; buglers and trumpeters, 50 c.; privates, 50 c.

THE CANADIAN RAILWAY.—The Walla Walla (W. T.) *Statesman* gives publication to the following nonsense: "The construction of the much talked about Canadian Pacific Railway has at last been demonstrated to be wholly impractical. The leading Canadian engineers state that the road must be carried from where it will touch Lake Superior very far to the north toward Hudson's Bay, and then, by long detour, down toward the St. Lawrence. Unless the road stopped at Lake Superior, its cost would probably be three times that of the Northern Pacific; and if it stopped there, its whole route would be so near the Northern Pacific as to be a mere duplicate of that road. The government lands which would be granted to it, with the exception of the Valley of Saskatchewan, would be absolutely worthless, and would not tempt the lending of a dollar of capital British Columbia was officially promised that the road should be built if she joined the Dominion, and yielding up her independence finds herself and her 7,000 inhabitants entrapped into a barren and solitary union with a distant and inaccessible partner.

ARRIVAL.—The british barque Robert Jones, Capt. Ellis, arrived in Royal Roads on Thursday night at 10 o'clock, 163 days from London, consigned to Messrs. Janion, Rhodes, & Co. She has a cargo of three hundred tons of general merchandise for Victoria, and 200 tons of naval stores for the dock yard at Esquimalt. She also has two 64-pound guns for the navy. Captain Ellis reports very bad weather off the Horn. Since crossing the line on the Pacific side she has encountered nothing but light northerly winds with heavy fogs, hardly had a clear day since that time. She brings no passengers. The crew are all in good health. The vessel came to Messrs. Janion, Rhodes, & Co.'s wharf yesterday evening, where she will discharge her cargo.

RAILROAD BUILDING ON THE COLUMBIA.—The Vancouver *Register* says: "We have seen difficulties confront railroad builders before now; but such as the Northern Pacific are contending against at Carroll's Landing were perhaps never equalled. The flood washed away about a hundred yards of the grade, forming a regular crevasse, through which water rushes with the rapidity of a mill race. The whole force of the camp, not less than a hundred, assisted by ten one-horse dump carts, worked five days in repairing *one foot* of the damage. The current being so swift that it was washed away almost as fast as it could be dumped in."

FOR PUGET SOUND.—The steamer North Pacific, Capt. Starr, left yesterday morning at 12 o'clock, for the Sound, with a fair amount of passengers. Most of whom were for the steamer California for Portland, with which vessel the North Pacific would connect at Port Townsend.

THE Executive Council met yesterday.

Way Fares to and from Victoria.

Captain Taylor, of the steamer North Pacific, has given a list of fares from the several Sound ports to Victoria. The rates between intermediate ports are relatively moderate.

Olympia to Victoria	$5 00
Steilacoom	4 50
Tacoma	4 00
Seattle	3 50
Port Madison	3 50
Port Gamble	3 00
Port Ludlow	3 00
Port Townsend	2 50

THE LIEUTENANT-GOVERNOR.—It is said the salary of our new Governor will be $8,000 per annum; it is also said, Mr. Tilley declined $10,000 to come to govern British Columbia; that the salary was insufficient to compensate for the difference between Canadian and British Columbian necessaries. It would appear, the story which we published from a Canadian source some short time since, with regard to the rates of servants' wages, etc., has had some foundation in fact. In Canada, good female servants may be had from $6 to $15 per month. The wages in this colony are about treble, and relatively so for other household expenses.

FIRST VICTORIA DIRECTORY.—We have before us the 1871 edition of this work. It contains lists of names from every district in the colony, accompanied by statistical information, as to agricultural and other productions, population, &c., and all of the Dominion and British Columbia tariff. The compiling of a work of this character involves considerable labor, and requires the utmost care to keep free from error. This work we consider very complete and useful

ARRIVAL OF THE DOUGLAS.—This steamer arrived yesterday afternoon from Comox, Nanaimo, Cowichan, with twenty passengers, half a dozen head of fat cattle, the mails, &c.

Two vessels were loading with coal at Nanaimo for the Sandwich Irlands—they recently sailed from this port. Mrs. Stannard, Messrs. Visseux, Harvey, Harris, "John Bull," the superintendent of the New Castle quarry, Capt. Warren, were amongst the passengers.

THE OLYMPIA.—This fine steamer arrived at 10:30 last night from the Sound, being about to turn her back upon us, probably for ever. She brought a few passengers, and some freight for San Francisco, for which port she will sail on Tuesday next. Capt. Finch and family are going to the East. We are informed, that the route only, has been disposed of; neither the wharf property at Olympia, nor the Eliza Anderson, have been sold to Capt. Starr, as had been reported.

PRESENTATION.—Capt. Starr, steamer North Pacific, was the recipient yesterday morning on board his vessel, of a handsome silver fruit stand, inscribed, and presented from his guests on the late excursion to the Sound Messrs. Burnaby, Leneveu, Norris and Wylde presented it on behalf of the subscribers. Capt. Starr in thanking the donors made a very suitable address.

BARON KRUPP has constructed a model of a new cannon which, it is said, will batter down the heaviest ramparts at a distance of 13 kilometres, or about nine miles! For the founding of those monster guns great changes have been introduced in the forges of Essen, and several colossal steam hammers have been set up, the cost of each exceeding four millions of francs.

FROM THE SKEENA.—The Emily Harris arrived at half-past 10 last evening from the Skeena, with four or five passengers, two of whom went up in her—a small mail, and a load of coal from Nanaimo. There is no later news from the mines than that brought by the Otter. The news of scarcity of provisions is confirmed.

"TIGERS."—At a meeting held last evening, James Orr, Foreman, was re-elected; E. Simpson, 1st Assistant, re-elected; J. B. Buell, 2nd Assistant; F. Sylvester, Secretary, re-elected; H. Saunders, Treasurer, re-elected. The Tigers will turn out this afternoon for practice.

ANOTHER NUISANCE.—A nuisance, but more easily abated than the thistle, is that experienced by ladies from loosened nails in the sidewalks. We are requested to mention this fact in order that owners and lessors fronting on the sidewalks, make them good.

IN the Canadian official *Gazette* appears the appointment of Major Acheson Gosford Irvine to command the Militia Force in Manitoba, who are to be retained in the province for of service. Major Irvine is a son of Colonel Irvine, of Ottawa.

THE EMMA, which is being fitted up for whaling, will leave for San Juan to-day with material for the use of Mr. Spratt's new steamer, which is being built at the Island.

SENTENCED FOR CONTEMPT.—A curious case of sentence in the California Courts for contempt of Court is related in the telegraphic news of this morning.

"The New Departure."

Our telegrams of this morning refer to "the new departure," and the Olympia *Tribune* of a late date thus writes of it:

"There is going to be trouble in the Democratic camp, and if we are not greatly mistaken rank mutiny amongst the forces. Toombs, Stevens and Jeff. Davis, representing the extreme southern sentiment, and the Joe Lane element of Oregon, repudiate the new departure, and appear anxious to renew the strife for the lost cause. Toombs declares that 'it is time to begin the war again' and thinks 'that there are worse occupations for a gentleman than fighting." Jeff. Davis, while he does not counsel a resumption of the war, declares that the Southern people cannot with honor to themselves accept as legitimate the amendment forced upon the Constitution by fraud. Stephens holds similar sentiments, and the Southern papers, without exception, denounce the new departure. The Oregon Democratic papers do likewise. The *Standard* of Olympia edited by one of the most uncompromising Democrats, accepts the situation, only declaring that it is not a 'new departure.' California, Iowa, New York and one or two other States have already given in their adhesion to the Vallandigham platform. All this indicates that there is going to be a split in the Democratic party, and that the old hulk will go to pieces again as it did in 1860. In fact, the manner in which the two branches were united was such as to cause the party leaders to fear that they would not hold together even during a single campaign. We may look for a grand piece of patch-work when the next National Democratic Convention meets."

☞ Memory presides over the past. Fell's Coffee over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs, but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealer in British Columbia. Beware of spurious imitations. ly *

SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DESPATCHES.

EASTERN STATES.

NEW YORK, July 6—The Fourth of July at Tammany Hall, was celebrated in the usual manner. It was crowded to its utmost capacity, with a Democratic throng, and a slight sprinkling of ladies, and now and then a representative of the newly enfranchised element. Mr. Tweed first addressed the audience. He said: We propose that all issues of the past die, to strike forward into a bright and noble career, to once more place power in the hands of those who have always in the past time conducted the general government in a manner satisfactory to the country.

Letters from a large number of prominent Democrats were read, and among them one from Governor Hoffman, which does not endorse the "New Departure"; one from Gen. McClellan approving the New Departure; one from Chas. Alderge, M. C., Wisconsin, in which he says it is of small consequence what amendments are made, how they are made or enforced, while the constitution, the very body itself, its genius and spirit are ignored and discarded.

WASHINGTON, July 6—In the States where the percentage for assessing and collecting revenue is extremely light, the Commissioner of Internal Revenue will recommend to the President further consolidation

The Secretary of the Treasury to-day called in one million of three per cent denomination; $50,000 in numbers between 1,711 and 1,830 inclusive; and $10,000 in numbers between 1,739 to 1,844 inclusive. Between the numbers mentioned have been returned outstanding one million dollars. Interest in these certificates ceases on August 1st, after which time they will be no longer available as legal money on revenue of any internal bank.

LONG BRANCH, July 5—Senator Roscoe Conkling arrived this evening; the President met him at the depot. He has come hence to settle difficulties among New York Republicans.

CUBA.

NEW YORK, July 6—Gen. Frederick Cavada, who succeeded Gen Jordan as Commander-in-Chief of the Cuban army, was captured by the Spanish forces a few days ago, and ere this has been murdered. Correspondents say the Cuban cause is growing weaker, in consequence of unpatriotic dissensions among the leaders, but at the same time the Spanish troops are being fearfully decimated by disease.

CALIFORNIA.

SAN FRANCISCO, July 6—Sensation reports have been published here, to the effect that the National Guards at Sutter creek were served with miserable food, and had mutinied. In consequence, Col. Barnes telegraphed for information, and received in reply:

"SUTTER CREEK, July 6—To Col. W. H. L. Barnes: Your dispatch is received; the report is false in every particular; there is not a word of truth in it—not a single word. It is a slander upon the most orderly and soldierly body of men ever under arms. Signed, J. F. Bronson, Major Commanding Battalion."

The Alta Water Company, to take the North and South forks of the American river, the North fork of the Middle fork of the American river, and the tributaries of the Truckee river, and conduct them to San Francisco, was incorporated to-day. Capital stock, $1,000,000, divided into 1000 shares. Trustees—A. W. Von Schmidt, J. French, R. Samson, G. H. Ensign and C. W. Conroy.

To-day Judge Stanley sentenced David Colderwood to a fine of five hundred dollars, and be imprisoned five days for contempt of Court, in sending men to re-occupy land in the Western part of the city, from which he had been ejected by law. While he was rendering his opinion, Calderwood said to his lawyer, loud enough for the Court to hear it, "That is a lie." At the close of his remarks, Judge Stanley called the lawyer up, put him under oath, and asked him if Calderwood did not make the remark, which he reluctantly admitted. Judge Stanley then ordered Calderwood to pay an additional fine of $500, and be imprisoned five days more; and on failure to pay the fine, be imprisoned one day for each $2. He then adjourned the Court.

EUROPE.

LONDON, July 6—Frederick William, the Crown Prince of Prussia and the Prince Imperial of Germany, accompanied by the Princess Victoria, arrived in London this evening, and were received at the station by the Prince and Princess of Wales. The Crown Prince brings with him the Order of the Black Eagle, which he will confer on Count Bernstoff, German Ambassador to the Court of St. James.

PARIS, July 6—It is said the first act of the Assembly, as soon as the newly elected deputies shall have taken their seats, will be to prolong the power of Thiers, as Chief Executive of the nation, for two years.

A proposition is mooted intrusting to McMahon the command of the entire army, in order to give greater unity to the force, which will soon amount to 300,000 men.

The Court Martial for the trial of the Communists now under arrest, will take up the cases as in the following order: First, members Central Committee; second, persons who have usurped public functions; last, those generally comprised in the insurrection. Rossel is to be tried before a special tribunal.

Agricultural Show.

EDITOR STANDARD:—It appears that we are not to have an Agricultural Show in Victoria this year. We are told that the last was not a success financially; but no one appears to know how this happened. The show of the previous year was successful in every way. Was it bad management or accident that caused the falling off last year? Subscribers are certainly entitled to some account of the proceedings of the directors. Perhaps a statement of the way in which the funds were expended might give a clue to the cause of failure.

A MURDERER KILLED.—LOS ANGELES, June 29—Last January the two Bilderbeck brothers were murdered in a canyon near this city, it was supposed, by Allenzon Gardner, Al. Henry and a notorious character known as Buckskin Bill. Gardner was shortly afterwards arrested, and is now in jail. Search after Buckskin Bill and Henry was unsuccessful until now. From the information received here, Sheriff Burns started for Lower California, procured the necessary papers from the Governor of that province, and after weeks of search the pursuers came within ten feet of Buckskin Bill before he was aware of their presence. Buckskin Bill grabbed one of the men's guns, which went off and the ball entered Buckskin's left side below the heart. He died in two hours. He made a lengthy confession of the murder. He stated that he, Al. Henry and Gardner murdered and buried the Bilderbeck brothers, but that Gardner did the shooting. Henry accompanied Buckskin in his flight, but is now missing. There is no doubt Buckskin Bill killed him to ged rid of a witness.

Phil. Sheridan on the German War.

The following is a translation of an interview between Lieutenant General P. H. Sheridan, of the United States Army, and a reporter of the Illinois *Staats Zeitung*.

Reporter—Are you aware, General, that a great deal has been written lately about what you are represented to have said about the Emperor William, the Crown Prince and the German army, and which has given offence to the Germans.

Gen. Sheridan—Certainly, I have heard about it, but I have not taken any notice of it, because it is impossible to reply to every paper, and also because I thought the falsehood of the report was so plain that nobody would believe it.

Reporter—Therein you are mistaken. Have you any objection to the publication of this interview in the *Staats Zeitung*.

Gen. Sheridan—None at all; on the contrary, I would consider it a favor. I was received over there in so friendly and cordial a manner that on that account alone I would not have made the expressions imputed to me, even if I had been so disposed.

Reporter—What is your opinion of the great battles of the late war as compared with those of our American war? You are reported to have said that the Germans excel only in skirmishing.

Gen. Sheridan—I have said nothing of the kind—never spoke of the matter at all. The number of combatants on either side in the American civil war did not, in most battles come up to the enormous number engaged at Gravelotte, Sedan, &c. The victories of the Germans were not accidental, but the results of better generalship, superior discipline and greater courage.

Reporter—You were with the King at Gravelotte?

Gen. Sheridan—Of course; that was the only battle in which the French ought to have won, and their defeat was unpardonable. It was true the Germans outnumbered them by forty thousand men, but the almost impregnable positions of the French would have fully compensated them for the numerical disadvantage, had they not lacked courage.

Reporter—Was the Crown Prince always in the rear of the army?

Gen. Sheridan (emphatically)—No, sir; the Crown Prince was always with his army, and in battles whenever necessary, before the front. I myself have seen him in a shower of bullets

Reporter—You are reported to have represented Prince Frederick Charles as a charlatan?

Gen. Sheridan—There, you can see yourself how absurd these charges are. I have never seen Prince Frederick Charles. I only reached the King's Leadquarters at Gravelotte, and remained with him while Frederick Charles was left at Metz. At Sedan where both armies were united, I saw the Crown Prince for the first time, consequently I have, and can have, no opinion about Frederick Charles, having never seen him.

Reporter—And the Emperor William, have you often seen him?

Gen. Sheridan—The Emperor William is a fine old gentleman and a good General. He possesses personal courage and bravery in an unusually high degree. I myself have seen him under the heaviest fire at Gravelotte. Far from being under the influence of Bismarck, he has a firm, determined will of his own, which he knows how to carry out, even in opposition to Bismarck.

Reporter—Have you been long in Bismarck's company.

Gen Sheridan—Certainly; Bismark was always in the immediate vicinity of Headquarters. He is the greatest man in Europe by a long way, he is every inch a soldier, too.

Reporter—How did you find the discipline and bearing of the German soldiers?

Gen. Sheridan—This discipline is excellent. On the whole way from Metz to Paris I did not notice a single act unbecoming a soldier.

Reporter—But certain American papers have greatly indulged in virtuous indignation at the burning of Bazeilles and other villages.

Gen. Sheridan—That was because they didn't understand anything about it. The destruction of those villages was necessary and fully justified. They had to conquer house by house from the Franc-tireurs.

The Kirk and Satan.

Among the editorial paragraphs of the New York *Tribune* of June 16th is this:

One is almost tempted to believe that our friends, the Scotch, must surely know of some special writ or power of attorney, which they received in ages past, qualifying them to manage the religious affairs of the universe, from the Almighty. Not content with dealing damnation round the world for three centuries, to all who differ from their peculiar creeds, they have now brought Satan himself to the bar to try his chances of ultimate salvation. His case was tried at Edinburgh. Mr. Dodds reported that Mr. Fergus Ferguson, at Dalkeith, had maintained that "God was not God if he could not extend mercy to the Pagans or fallen angels as to men." The "hair stood up on Mr. Dodds' head, and his body trembled at such blasphemy." He cited Mr. Ferguson before the Presbytery, but Mr. Ferguson was proved to be innocent of having said a favorable word for either Satan or the heathen. Mr. Dodds carried the case before the great annual United Assembly, and six hundred reverend judges sat solemnly during May, deciding the fate not only of Ferguson and Dodds, but the countless millions of dead and living men who had never heard of Christ. Mr. Ferguson was found innocent, but admonished, nevertheless, to take heed lest he fall into the damnable heresy of charity. Mr. Dodds was also admonished to beware of false swearing. As for Satan and the heathen, they were remanded finally to the hottest depths of a hopeless hell. One feels a perverse leaning to the side of Beelzebub in this quarrel. He, at least, if we judge from his work within us, has a devout humility, knows his sins, and does not arrogate the judgment seat of the Almighty. Our brethren of the Edinburgh Kirk might herein laudably follow his example.

IN the case of bankruptcy of Mr. Vane Milbanke, which came before the London court on the 19th April, it was shown that the liabilities amounted to $150,000, whilst the bankrupt would be entitled on the death of the Duke of Cleveland, whose dukedom will then be extinct, to property worth $70,000, a year, and on the death of his father to the estates of the value of $500,000 a year. Mr. Milbanke, who appears, in common with so many of the British *jeunesse doree* of to-day, to have been running a fine rig, and is commonly reported in London to have been within ace of matrimony with a notorious courtesan, came of age in December, 1869. The affairs of Buckstone, the famous comedian, were before the court the same day. It is melancholy to see a man of his mark ending his days in bankruptcy. English actors seem rarely to have the art of keeping their money. Buckstone has long been lessee of the Haymarket, and it was supposed that the success of "Our American Cousin" had set him straight a few years ago.

SAN FRANCISCO, July 2—Some days since the steamer Idaho was dispatched to the southern coast to tow up the steamer California, which had become disabled by breaking her shaft. Last night the California worked her way into Santa Cruz under sail. The Idaho in towing the California carried away her propellor. The John L. Stephens was dispatched from here to tow up the Idaho and for the California.

SILVER ISLET, formerly the unproductive property of the Montreal Mining Company, is now the scene of the most intense interest. Through the solitary days of the past winter, miners have been quietly working, and the revelations of this spring show that their labors have not been misguided or wasted. Every week large shipments of silver ore are made from these mines, and the supply would seem to be almost inexhaustible. Over 835 barrels of ore have already been shipped this spring, 330 of these by the steamer Chicora on her last two trips. Capt. McGregor, of the Chicora, informs the Collingwood *Bulletin* that the excitement at the Sault, Duluth, and other places on the lake, is very great, and every steamer carries one or more parties of adventurers who intend to explore the adjacant portions of the mainland. Practical miners from Mexico, California, Idaho, and South America have examined Silver Islet, and pronounce it to be the richest mine ever yet discovered. Operations are not likely to be long confined to this small spot. Prospecting is going on at McKellar's Island, 25 miles west of Silver Islet, where a splendid vein is reported. Another company, from Chicago, has gone to Black Bay, about 20 miles north-east of the Islet, where a lead is also said to have been found. A man by the name of Johnston is going to Michipocoton River for the purpose of prospecting. And still another have started from Duluth, known as the firm of Knox & Spencer, for the purpose of making a thorough examination of the North Shore. Capt. McGregor expresses his belief that discoveries of a very important character may be expected in this quarter during the present season.

HORACE GREELEY is being lionized at the South. This shows progress. Any time within five years before the war no Northern man, not even Wm, Loyd Garrison, would have been more promptly victimized in the South than Horace Greeley. Garrison was detested as a mischievous fanatic, but Greeley yielded a powerful press, and was still more hated.

THE FORTY-FIFTH ANNUAL GENERAL MEETING OF THE STANDARD LIFE ASSURANCE COMPANY was held at Edinburgh, on Thursday the 20th April, 1871—

THE CHAIRMAN requested particular attention to the Report submitted by the Directors, which was then read and from which the following is an extract:

"On the present occasion the Board of Directors have not only to give an account of their proceedings during the first financial year of the Company's progress, but during the quinquennial period which closed on the 15th November, 1870.

"The Directors have now much satisfaction in reporting that each year of the quinquennial period has been attended by that steady and satisfactory progress which has for so long a period marked the operations of the Company They did indeed at one time, contemplate that their advancement might be checked; First, by the monetary disturbances in 1866, and latterly, by the financial difficulties of various English Assurance Offices, which had given rise to distrust and doubt; but it will be observed from the following table, showing the business transacted during the five years that the Company has pursued the calm and even tenor of its way without being in any degree affected by these disturbing elements.

NEW ASSURANCES EFFECTED from 15th November, 1865 to 15th November, 1870:—

"To 15th November, 1866	£1,190,281 11 2

Total in Five Years	£5,713,813 7 3

Giving an annual average of new business during the period of £1,142,762 15s. 5d., the first and last years of the period being above the average.

"While the Directors direct attention to these results, as indicative of the industry with which the business has been pursued, they would also claim credit for the exercise of a sound discretion in the selection of lives, the proposals made to the company during the period referred to, and from which these assurances were selected, amounting to no less than £7,151,170 16s. 5d. contained in 11,221 proposals, of which 9,190 were accepted, represented by the total of £5,713,813 7s. 3d. shown above.

"The company has thus, it must be admitted, been eminently successful in obtaining new business, evincing the esteem in which it is held by the public; but a Report of this nature would be very incomplete were prominence not given to the Exits as well as the entrances. Death has claimed its usual percentage of the living and the company has fulfilled the object of its institution by meeting with promptness the claims which were thus made upon its funds.

"The Deaths during the quinquennial period gave rise to the following claims:—

Claims.	Sums Assured.	Bonus Additions.
1866	£314,376 3 10	£48,603 4 8
1867	306,561 13 6	46,190 13 0
1868	315,070 15 6	46,899 17 1
1869	322,117 11 8	36,649 10 10
1870	333,605 16 4	42,343 16 1
	£1,591,732 0 10	£220,476 1 8

"In transacting all this business, the Directors have to the best of their ability, discharged the responsible duties devolved on them. It can well be imagined that in the acquisition of so much new business, in the dealings with so many accumulated transactions and in the settlement of such a large amount of claims, questions of importance requiring the exercise of care, judgement, discretion and liberality, have presented themselves and probably the best gauge of the success which has attended the management in these respects is that so little had been heard of the Company as it pursued its way. The Directors may at any other time refer to the advanced position which this Company has always taken up in liberalising the conditions of the Assurance Contract which has greatly facilitated all these proceedings, but at present they will confine themselves to the simple duty of reporting progress.

"The Directors have only further on this occasion to refer to the Investigation with reference to the Eighth Division of Profits now in progress. They are happy to state that the laborious calculations necessary to ascertain the Company's position have very nearly been completed, but the results have not been placed before them by the Actuary, so that they can make no statement on the subject, but they are glad to have it in their power to state that a few weeks hence the whole will be reported in the most complete manner. These remarks apply to the actuarial results which show the liabilities of the Company. The investigation of the other side of the account, namely: the Assets, has already been completed and a most satisfactory Report made by a Committee of Directors who have examined each security and each document constituting it.

The Chairman then addressed the meeting in congratulatory terms on the position of the Company.

The Report was unanimously approved of; and after the election of new Directors and a vote of thanks to the Office-Bearers, the meeting separated.

BY ORDER OF THE DIRECTORS.

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief, Respectfully,

JOHN HENTON, of Kentucky, U. S.
